

WHY THE FOUNDATION EXISTS

At The Hignell Companies Foundation we closely align with our corporate mission: Creating Caring Communities that Transform Lives. Our focus clearly states who we are and our core beliefs. We start with our employees and seek to build opportunities within our managed communities and the community at large.

Our giving reflects our trust in God:

- To bring transformation within our sphere of influence: our employees, our customers, the cities of Chico and Oroville, and beyond.
- To make our company a supernatural incubator from which people are launched into their divine destiny.
- To provide financial resources beyond our wildest expectations: to meet the needs of employees, customers, and community for whom we are called to care.

And, our methods are simple: we work in and through relationships, seek to honor and encourage one another, demonstrate unwavering integrity, practice uncommon generosity, and foster growth and innovation.

Our giving programs—our Employee Care Fund and our Community Impact Fund—embody these principles and beliefs. Our hope is that we might reflect God’s love through our own practice of uncommon generosity and truly inspire our employees and the community at large to live out their divine destiny.

Major Impact Initiative

Each year the Executive Team and the Community Impact Advisory Team may choose a major impact initiative to focus some or all of the giving for the year. In addition to monetary grants, employees of The Hignell Companies Foundation will be invited to offer gifts of time to focus on this initiative.
